This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Your wallet will be none-the-lighter! Just so we're all 100% clearhere: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. It is alsoallowed to link to the download page from websites and communities. The cost of that data transfer is covered by your internet service or the data plan on yourphone. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Files can bedownloaded from any computer from our high speed servers. You decide who you want to share your files with. There are no restrictions on the number oftimes a file can be downloaded. If only we could, we surely would! On the other hand, using file can actually save you money. Our service is completely freefor everyone. File is free to use with no gotchas and no hidden fees. We have no file size limit. You can upload any type of file (movies, music, documents,images, zip files and more). filehosting provides an easy possibility for you to send large files to your friends. Alternatively you can choose to share yourdownload links on blogs, forums and social networking sites. Simply upload your file and share the link. You don't need any special software installed to beable to download your files. You can give this download link to your friends by mail or instant messenger. Using file, you can circumvent those limits withoutpaying to upgrade your team chat service. Unfortunately, we can't make that part free. When you use file, you avoid storing the file you're sending in yourcloud storage or mail server. So try our free and simple filehosting service now. Any file in any format can be uploaded and downloaded for free. Keep yourfiles private, or send your download links only to friends or family. Just upload the file you want to share with your friends and we send you a download link toyour file. No acco
