Maybe even better than free.

Unfortunately, we can't make that part free. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. You can give this download link to your friends by mail or instant messenger. Keep your files private, or send your download links only to friends or family. It is also allowed to link to the download page from websites and communities. You don't need any special software installed to be able to download your files. You decide who you want to share your files with. There are no restrictions on the number of times a file can be downloaded. We have no file size limit.
