Crank out the tunes while you ride your 12V Motorcycle, Scooter or ATV with one pair of 3inch Full Range Speakers with a Built-in 400 Watt Max Power Amp. Hook your Smartphone or MP3 Player up to the Auxiliary Input. Turn up the sound with the Wired Remote Volume Control. The MC300 Speaker with a Built-in Amp is Weatherproof to provide protection against the elements. They already have the power to play louder. Hook your Smartphone or MP3 Player up to the Auxiliary Input. The MC300 Speaker with Built-in Amp is Weatherproof to provide protection against the elements. Feel the wind and listen to your music with the Boss Audio MC300. For further product details, please scroll down. Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. Please try again later. Barry Welch 1.0 out of 5 stars To say the least I'm not at all happy with this purchase and would not recommend it to my worst enemy. The old saying is very relevant to the Boss MC300 "you get exactly what you pay for". The system I replaced with this was 100W and probably twice as loud. This could be my fault but I get a lot of engine noise through the speaker and it distorts. The higher the revs the worse it gets. I'm probably going back to a Pyle system. Bought another one from Amazon this time, and, again, after a few weeks the left one failed to work. Worked well at speeds over 55, but. The sound may be a bit quiet but I can make due or I can change out some speakers. But did not come with a fuse or a switch to turn it on and off. Sorry, we failed to record your vote. Please try again Kind of expected that. Needs a little more bass from a larger speaker to over power the Thunder of the pipes. Took them off and wiring them up for deck speakers around the hot tub. Sorry, we failed to record your vote.

<http://www.bosport.be/newsletter/3m-electronic-pipettor-ii-manual>

Please try again I can't give these away. Very misleading ad, no way these are 400 watts. Very disappointed Sorry, we failed to record your vote. Please try again Sorry, we failed to record your vote. Please try again. Shop Online and Parts Ship Today. Call us at 1800 4585593 When your

Visit your local Mickey Shorr today and let our Factory Trained Professionals help you upgrade your bike. It also integrates our Constant Power technology which results in up to 25% more output power. Amplifier top mounted controls include our C.L.E.A.N. level setting system, integrated low pass crossover and our Punch EQ boost circuit. Upgraded input RCA connectors allow for high or low level input signal to be used through our differential input circuit which eliminates incoming noise and can provide a remote out signal when using high level inputs. Dual fan cooling, real time thermal monitoring and dual extruded heat sinks maintain heat dissipation even at high outputs keeping the amp cool. Other features include a conformal coated circuit board for protection against element exposure and compatibility with our PLC2 level remote control. It also presents a safe load to the radio amp circuit to eliminate excessive wear and tear on the radio, making it ideal for OEM and aftermarket radio integration. The conformal coated PCB allows for mobile, motorsport and marine applications. This amp is great for smaller stealth installations, motorcycles and recreational vehicles. Not only does Cruise provide exceptional audio reproduction, but it allows the user to charge their mobile device from the vehicle's battery. JBL Cruise's design is aerodynamic, compact, waterproof and easy to operate. The speaker mounts using the factory hardware and comes with new grille assemblies.
